

# Fraser Platform BOC At Large Post 1

## November 2022

### Restore Trust in our Local Government

1. Reliable Representation
2. Quality of County Staff
  - A. Over the past ten years, our county government has become a “closed environment”. The county management has allowed the county staff to degenerate to an “us against them” culture and the destruction of a service approach within our county staff.
  - B. I intend to ensure that our county staff will follow our own ordinances.
    1. Quality growth and development
      - a. Ensure the adoption of a new code of ordinances that will assure quality in new growth and development.
      - b. Absolute adherence to the state and county Storm Water Requirement
    2. Preservation of Quality of Life
3. Fiscal Responsibility
  - A. Restore the principal of efficient government
  - B. Insist on adherence to the strict definition of “Special Purpose” in SPLOST
4. Lead development of a comprehensive St. Simons Island Traffic Plan – not one intersection at a time.

### Transparency in our Local Government

1. Encourage Citizen participation in BOC meetings and distribution of government priorities.
2. Open citizen participation by conducting quarterly Town Hall meetings throughout the county
